WE SUPPORT SUSTAINABLE WOOD SOURCING

One important step towards a more sustainable design industry is to support responsible wood sourcing and forest management. That is why we endorse the Forest Stewardship Council™ by increasing the total share of FSC™-certified wood in our production. Doing so, we help make sure that no more trees are felled than the forest can reproduce – and that local communities, biodiversity and forest workers are treated with respect. Since the FSC™ certification covers some areas of the world more thoroughly than others, we also take in PEFC-certified wood from Canada and the like.

Furthermore, we adhere to EU's Timber Regulation from 2013. This means that we perform due diligence on all shipments covered by the EUTR, to ensure that the wood comes from legal sources.

Look for our FSC-certified products.

responsible forestry**
