SHOWROOM DISCOUNT

STUA wants to help every store to display the collection on the showroom. This is why we have the special "Showroom display discount" programme.

Each store has the right to make one order per year with these conditions.

SUSTAINABILITY

CARING FOR THE ENVIRONMENT, EVERY DAY

At STUA, we are continuing to implement measures to renew our environmental commitment. This year, our focus is on reducing our carbon footprint.

During 2025, the photovoltaic panels on the factory roof have already generated clean electricity for our own consumption.

This has had a real impact:

48 tonnes of carbon have been saved.

31 tonnes of CO₂ avoided.

This is equivalent to the annual absorption of more than 2.000 trees.

The new recycled Vescom fabrics are made from up to 100% recycled PET plastic. For every metre of fabric, we remove 45 plastic bottles from the sea.

Our web servers are now more environmentally friendly, with a reduced carbon footprint thanks to more efficient equipment and technologies, as well as the use of 100% carbon-free energy.

We are continuing to make progress with our paperless office plan.

Our small bamboo forest and its surroundings continue to grow around our new headquarters, with more than 800 trees and plants.

And as always, we remain committed to highly durable designs and materials. Durable furniture for a sustainable world.

Learn more about our environmental commitment:

THE PETAL XL ARE SHIPPED IN 6-7 WEEKS

TWO PARTS. These large-format tabletops are made up of two pieces joined together with a concealed joint system.
DIFFERENT PATTERNS. As this is a natural wood finish, it is not possible to guarantee the homogeneity of the wood pattern between the two parts.
BLACK. For contract work it can be made in black laminate. Ask us for a quote.
SPECIAL WIDTH 120 CM. Petal XL can be manufactured in a width of 120 cm, with a surcharge of \$495.

ACCESSORIES

TEAK SLAT WITH HOLE

Teak tables include, free of charge, an extra slat with a Ø50 mm central hole. This slat can replace the central slat so that a parasol can be placed in it.

FLOOR FIXING SYSTEM

FIXING PIECES	CODE	RETAIL
Set of 4 for 1 table	DFIX	169 \$

Deneb tables and benches can be fixed to the floor by means of four special aluminium pieces that replace the plastic caps.

Important: please ask for the fixing system when ordering the table or bench so that it can be delivered already installed on the legs.

STUA FABRIC COLLECTION

We want to inspire you, and for that we bring you fabrics made in some of the most unique mills in Europe. Mills that produce for Prada and Paul Smith. From them come exclusive fabrics manufactured only for STUA.

We offer four collections that we always keep in stock:

21 TECHNICAL FABRICS

We have added six 100% natural fabrics and twelve fabrics made from recycled plastic bottles, plus three Kvadrat classics.

Natural: 6 Main Line Flax fabrics by CAMIRA

Recycled: 12 fabrics by VESCOM

Classics: 3 fabrics by KVADRAT

32 SOFT-TOUCH FABRICS

These are soft-touch fabrics mainly produced in mills near Lake Como in Italy, or in Barcelona. Some are sophisticated and delicate, others are resistant for family life. See the table at the next page that shows the suitability of each fabric.

7 LEATHERS

Leather is a natural and surprisingly sustainable material, as it is a by-product of the food industry. At STUA we work with two of the best tanneries in Italy to offer two leather qualities:

Protected leather: 3 high-performance leathers coated with a thin varnish that makes them very resistant.

Natural leather: 4 leathers with lighter protection that age with a natural patina.

6 ARTIFICIAL LEATHER

Often called eco-leather or vegan leather, but in reality it is a plastic material made of polyurethane, available in 6 colours. An extremely resistant material with more than 500.000 Martindale.

UPHOLSTERY THAT COMPLY WITH UK CRIB 5

Fabrics: Camira Main Line Flax, Vescom Foster, Auckland, Norfolk

Artificial leather: Spradling Valencia, price G1

Leather: Extra from Antic Cuir, price G4

OTHER FABRICS FROM CAMIRA, VESCOM, KVADRAT OR SPRADLING OUTSIDE THE STUA COLLECTIONS

STUA offers a selection of fabrics from Vescom, Camira and Kvadrat. And now for the sanitary sector we offer the Valencia fabric from SPRADLING, from group 1, but always with the surcharge of ordering special material.

Please note: these fabrics are not part of our regular collection and therefore carry an extra cost of \$122 per fabric or colour.

Extra cost per fabric or colour: +122 \$ / fabric or colour

Concept without discount.

COM TEXTILES

STUA can manufacture upholstered products in COM fabric.

COM fabrics must be tested and approved by STUA.

Before placing a firm order, please send us a sample.

Upholstery in COM fabrics is not covered by STUA's guarantee.

Production times with COM fabrics: around 8 weeks.

ARTIFICIAL POLYURETHANE LEATHER

High performance, artificial leather alike made of robust polyurethane. It's not leather, it's imitation leather.

Stain protection.

High Scratch Resistance.

Resistant to urine and hospital-grade cleaners.

Resistance to Hydrolysis: 8 Years.

Suitable for home and contract use.

PROTECTED LEATHER

Smooth natural grain leather slightly corrected.

Lightly pigmented, it is a covered leather. It can show the animal's own wrinkles.

A comfortable leather with a natural feel and at the same time offering great durability that can withstand the stress and wear and tear of public places.

Produced in Italy from European cattle.

Meet the REACH regulation.

Recommended at home and for contract use.

NATURAL LEATHER

Full grain semi-aniline bovine leather.

Chrome tanning, passing dyeing, refinement made with resins and natural pigments.

High quality leather characterised by its naturalness and versatility, ductile touch and semi-opaque aspect.

Its special drying, 'sotto vuoto', facilitates the recovery and spring of the leather in the sitting.

Produced in Italy from European cattle.

Recommended mainly at home.

LEATHER

PROTECTED FOR HARD USE

This leather has a protective coating for contract projects.

NATURAL OR STAINED WOOD

STUA works with natural wood, both veneer and solid wood, depending on the product. We use oak, walnut or ash.

Natural wood comes in three finishes:

- natural acrylic varnish
- stained
- lacquered

Wood is a living material. Variations in the grain pattern and background colour are completely normal. Slight tone differences between products are always possible, even when the same stain is used.

BLACK LAMINATE

Super-resistant material with a natural feel and easy maintenance. With antiviral and antibacterial properties. Perfect for table tops subject to heavy use.

Interior: Black MDF. Made from wood fibres pressed with synthetic resins.

Thickness: 20 mm.

HPL - HIGH PRESSURE LAMINATE

Also known as Compact, this is a very hard material created from wood pulp and phenolic resins subjected to high pressure.

Hygienic and easy to clean.

Suitable for indoor and outdoor use.

Thicknesses: 10 and 12 mm.
